

**REGENERATION  
INTERNATIONAL**

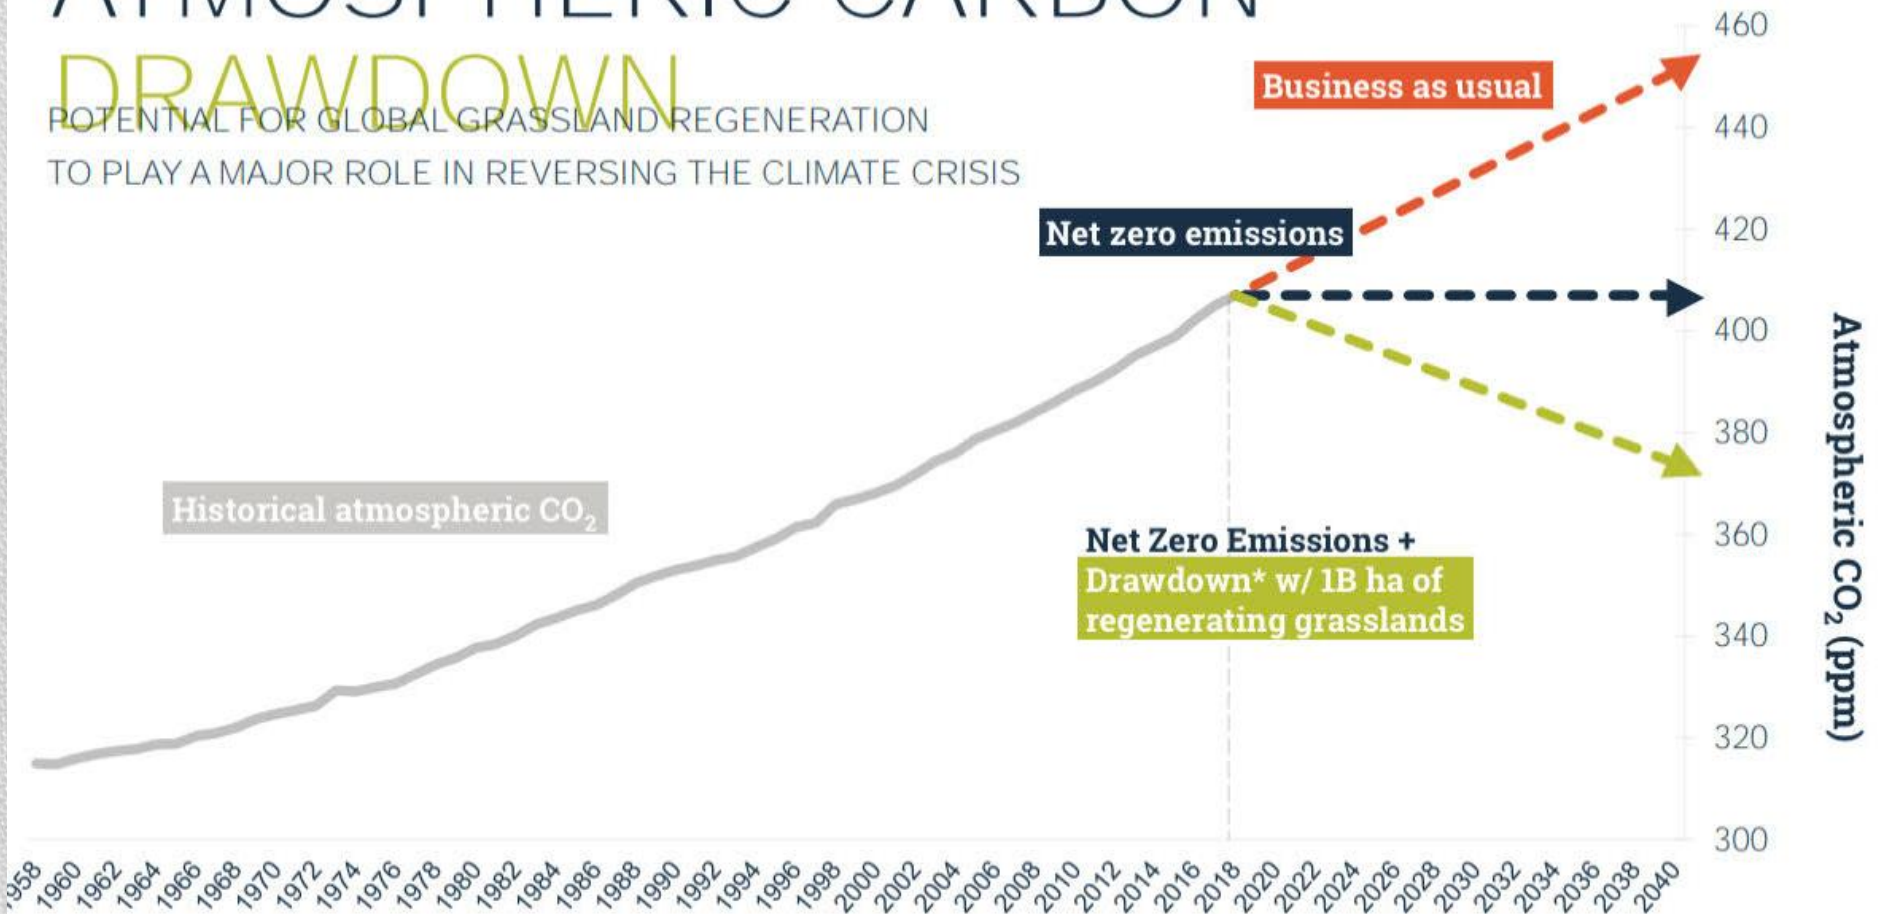

## • **Mission**

- To promote, facilitate and accelerate the global transition to regenerative food, farming and land management for the purpose of restoring climate stability, ending world hunger and rebuilding deteriorated social, ecological and economic systems.

# The OPPORTUNITY

## ATMOSPHERIC CARBON DRAWDOWN

POTENTIAL FOR GLOBAL GRASSLAND REGENERATION  
TO PLAY A MAJOR ROLE IN REVERSING THE CLIMATE CRISIS

\*At a rate of 3 tons C/ha/yr (Teague 2011), recognizing that some lands have the potential to drawdown more and others less, dependent on soil type, climate, and previous management practices

- **Capacity Building:** Regenerative Agric and what it can do for people, their land, and their society.
- **Network Building:** global effort to strengthen the voices of small civil society groups that are impacting thousands of farmers
- **Policy-** Through partnerships we are influencing local, regional and international policies in Africa, Latin America, and Asia- to enable transitioning to regenerative food and farming systems.
